Tempe Sewer Project Update

Achen-Gardner Construction is working both day and night on our Sewer Capacity Improvements CMAR project for the City of Tempe. We have substantially completed work on 23rd Street and have moved on to the next phase of the project. We are coordinating with the nearby United Dairymen of Arizona facility and other area stakeholders to ensure access and traffic flow is maintained. [Visit our website for more project details and photos.](#)

Achen-Gardner Wins Safety Award

We are proud to have won the Ben Patton Luster Construction Safety Excellence Award from the Arizona Transportation Builders Association (ATB). This award recognizes a companywide commitment to safety and creative solutions to safety challenges. Cesar Martinez (Safety Manager) and Geoff Tucker (Area Manager) accepted the award at the ATB Installation and Awards Dinner on February 1st.

One of our most unique safety challenges in 2019 was our Salt River Siphon Repair Design-Build project for Central Arizona Project. This work was featured in our award submittal and we are proud of our safety achievements on this and all of our projects. [Visit our website for more project details.](#)

Volunteers Needed

The Ninth Annual Sky Kids Fly Day Event for Special Needs Kids will take place at Lux Air Jet Centers at the Goodyear Municipal Airport on March 28th. This event allows special needs children to experience the fun and excitement of flight. Achen-Gardner Construction has sponsored and supported Sky Kids for many years and we are once again proud to support this event. We invite and encourage all of our colleagues to consider participating and sponsoring as well. By volunteering to help all or part of the day you will be rewarded by seeing more than 100 very special kids and their families have a day they will never forget. [Visit the Sky Kids website for more information.](#)

Planes, Trains, and Excavators

We are installing a new PVC gravity sewer main along the fence line next to Luke Air Force Base and next to the BNSF railroad. We are coordinating with the base and following all safety procedures as we enjoy working next to cool military aircraft. [Visit our website for more project information, photos, and video.](#)

SRPMIC Water Line

The team of Pimara Construction and Achen-Gardner Construction is installing more than 11,000 LF of water line (4" to 16") and 56 valves (4" to 16") on McClintock Drive and McKellips Road for the Salt River Pima-Maricopa Indian Community (SRPMIC). [Visit our website for more project information and photos.](#)

Pima County Wastewater Tests SaniTite Pipe

We completed the installation of Pima County Regional Wastewater Reclamation Department's (PCRWRD) first ever SaniTite sewer line on our Twin Peaks-Blue Bonnet Gravity Sewer Design-Build project. PCRWRD is testing the material for use in sewer line installation projects. [Visit our website for more project information and photos.](#)
